

Certificate

for

U&we

As part of its commitment to environmental responsibility,
u&we - catalyst for good business
offsets the following emissions resulting from business activities in 2020:

7 tonnes of CO₂e

This certificate confirms that these emissions were offset by emission reductions certified under the ISO 14-064 Standard, through the climate protection project

Production and use of Biochar

First Climate has permanently retired the corresponding emission reduction certificates irrevocably from the market.

Zurich, March 2021
